EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

A). Claim 1, line 29, "the threshold function;" should be changed to "the threshold function." in order to put the claim in an acceptable format.

B). Claim 25, line 4, "partitioning" should be changed to "(l) partitioning" in order to maintain proper step hierarchy.

C). Claims 35-42, 44-51, line 1 (for all respective claims), "The method" should be changed to "The apparatus" as these claims are dependent from apparatus claim 27.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 27 recite "...a thresholder adapted to threshold the given portion, wherein the rate controller determines whether the given portion should be requantized and whether the given portion should be thresholded based at least in part on at least one of the statistics about the given portion; and an encoder adapted to compress the frame, wherein the

compressed size of the frame is approximately the same as a target size; wherein the rate controller is further adapted to determine a target number (NTHRESH) of levels to set to zero by thresholding; wherein the thresholder is adapted to determine the number of levels (CNT) beneath a threshold function having a predetermined width and height profile, responsive to the number of levels (CNT) beneath the threshold function being within a predetermined range of the target number (NTHRESH), the thresholder sets the magnitude of the levels beneath the threshold function to zero, and responsive to the number of levels (CNT) beneath the threshold function being outside of the predetermined range of the target number (NTHRESH) the thresholder adjusts the threshold function..." which are features that are not anticipated nor obvious over the art of record. Dependent claims 2-17, 19-26, 28-42, 44-51 are allowable for the reasons concerning the independent claims.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
